Specialty Carrier Starch

FIBER-LOK® is a specially formulated carrier designed for domestic board grades. It is a proven, economical specialty carrier starch that meets the needs of high speed corrugators, providing that extra margin of performance that pearl starch cannot.

BENEFITS

- Good Raw Starch Holding Properties
- Uniform Application of Adhesive
- High Film Strength
- Good Green Bond
- Viscosity Stability
- Less Carrier Required
- Easy Mixing

FIBER-LOK®

can help improve your operation in one or more of the following areas:

- Reduce Bonding Problems
- Reduce Waste
- Improve Run Speeds
- Lower Costs
- Reduce Starch Consumption
- Reduce Warp

FIBER-LOK® is used throughout the U.S. and abroad in all types of mixing systems (top and bottom mixers, single tanks, jet cookers, and no carrier systems).

Corrugated Chemicals is dedicated to providing great products with superior technical service. Our staff works closely with our customers who use **FIBER-LOK®** in their starch formulas. We will design a service program that meets your requirements. We offer starch seminars, corrugator reviews, starch reports, lab testing, and much more. Please call us to request more information concerning our specialty carrier starches or if you would like a regional sales manager to contact you.
