TURBO **Max**

TURBO **Max 66**

TURBO **Max 50**

Turbo Max is a liquid product, designed to be used with an all pearl starch formula to increase tack, and provide a faster setting bond. As one of Corrugated Chemicals' newest chemistries to enhance the corrugator bond, this product has proven to run both light weight and heavyweight grades at O.E.M. rated line speeds. If you are not getting the asset utilization you require on your corrugator, consider using this product.

Turbo Max 66 and **Turbo Max 50** are Performance Resins utilizing the speed enhancing chemistry in **Turbo Max**. With these products, you get moisture and water resistance with speed and bond improvement.

Characteristics:

- Improves run speeds on heavyweight combinations
- Aggressive bond will typically allow for lower gap settings
- Typically provides a firmer sheet off the machine
- Works with light to heavy weight SW, DW and TW
- Addition to starch can be automated
- No change to gel or viscosity
- Reduces loose edge problems
- No adverse reaction with resin
